## a new era of renewal

At BainUltra®, we see taking a bath as much more than a daily ritual. It's a refuge from all the noise and pressures of daily life. A moment to reclaim balance, reset the mind and regenerate the body.

Since 1977, our philosophy has been rooted in the idea that self-care is not a luxury—it's essential. And we've been pioneers in elevating the simple act of bathing into a truly transformative experience.

Today, we're stepping into bold new waters. The world is moving faster than ever, and the need for recovery has never been greater. And the evolution of our brand and products reflects that reality.

Every material, every shape, every innovative feature is crafted with one goal: to enhance bathers' well-being. From ergonomic designs that cradle every curve, to therapies that deepen relaxation, we keep pushing the boundaries of what a home bathroom can be.

let the water  
do its work

# where stress stops, and recovery begins

## Hydro-thermo Massage®

BainUltra®'s Hydro-Thermo Massage® offers a rejuvenating experience closest to a hands-on professional massage. It combines three types of massage in a single therapy: thermo massage, hydro massage, and acupressure.

It is recommended for a wide range of physical, emotional, and psychological conditions by:

- Reducing stress
- Relieving pain, stiffness, and sport injuries
- Improving blood circulation
- Stimulating the immune system

## Thermotherapy®

Thermotherapy® is the therapeutic use of heat. When immersed in warm water, your internal temperature rises, enhancing oxygen circulation in your blood and promoting deep relaxation for both body and mind.

Heat provides multiple benefits, including:

- Revitalizing skin and relaxing muscles
- Improving blood circulation
- Supporting the body's ability to fight viruses

Water has a natural ability to heal, restore, and energize. At BainUltra®, we celebrate bathing as more than a daily ritual—it's a personal retreat, a meaningful act of self-care that replenishes body and mind. Inspired by water's inherent therapeutic power, we design baths and innovative therapies that align beautifully with your lifestyle and preferences.

Whether you desire the simplicity of a soothing soak or wish to experience the deeper relaxation provided by our advanced wellness therapies, BainUltra invites you to reclaim balance, renew your energy, and transform everyday moments into lasting wellness.

## Chromatherapy

Chromatherapy uses the power of color to promote positive physical, mental, and emotional changes.

As a powerful tool for achieving balance and harmony, color vibrations can calm, energize, or enhance focus.

Six colors—blue, violet, red, orange, yellow, and green—are calibrated at different frequencies, each serving a specific therapeutic purpose, whether stimulating or soothing.

## Aromatherapy

Aromatherapy is the practice of using essential oils to enhance both physical and emotional well-being. When diffused, these potent oils enter the respiratory system and reach the circulatory and lymphatic systems, where they interact with cells to promote healing and restoration.

The benefits of aromatherapy include:

- Reducing stress and anxiety
- Strengthening the immune system
- Enhancing mood and overall well-being

BainUltra® therapeutic baths are recognized by The American Institute of Stress.

## Wellness through innovation

Since inventing the air-jet bath — the revolutionary ThermoMasseur® — in 1977, BainUltra® has remained committed to developing groundbreaking technologies that enhance well-being. With 21 patents earned through relentless innovation, our therapeutic solutions blend advanced science with profound relaxation. Each innovation is thoughtfully engineered to enhance comfort, soothe stress, and rejuvenate both body and mind, empowering bathers to experience wellness as a daily reality, not just an aspiration.

---

## White-glove customer experience

At BainUltra®, exceptional service is a lifelong promise. Our dedicated support team serves bath owners across North America, providing personalized, human-centered assistance from initial purchase through the entire lifespan of your bath. Experienced experts are always just a phone call away, offering real-time guidance during installation and beyond. With BainUltra®, you're never alone — our commitment to your satisfaction ensures unmatched peace of mind, today and tomorrow.

---

## Craftsmanship

At BainUltra®, craftsmanship is at the heart of everything we do. Over 70% of our manufacturing process is proudly handcrafted, and each bathtub is meticulously finished by skilled artisans. Every stage of production undergoes rigorous quality control to ensure that each bath meets our exacting standards. This careful attention to detail guarantees not only exceptional beauty but also lasting quality, creating an experience that truly stands apart.
